

Dear parents, staff and members of the wider Glenahulla community.

The Department of Education and Youth recently conducted the Primary School Survey on community preferences regarding school type (co-educational/single-sex), patronage/ethos, and language of instruction.

Glenahulla NS has received its school-specific survey results and is sharing them with parents, guardians, staff, the Board of Management, and the wider school community for feedback. No decisions have been made.

The Board of Management will review the results and all feedback at a special meeting in October to decide whether to explore any potential changes.

The following documents are now available on our school website:

- Glenahulla NS school-specific survey results
- Department guidance on understanding the results

Please submit your feedback via the **Primary School Survey Feedback Form** on our website by **30 September 2026** or by clicking the following link;
